✈ donald_punky

I'm a Full Stack Developer with a passion for creating beautiful and functional web applications. My journey as a developer
began when I discovered my love for aesthetics, and it was not long before I found myself drawn to the world of technology.

💼 PROFESSIONAL EXPERIENCE

2022 March – present
Tampa, Florida

Squisheaze, Frontend Developer ↗
- Designed and developed a fully functional e-commerce website using WordPress and WooCommerce, integrating advanced features such as GSAP animations, Google Font API for custom typography, and Twitter Emoji for enhanced user engagement.
- Implemented efficient backend functionalities using PHP and MySQL, optimized site performance with Babel for JavaScript, and configured server-side resources with Apache HTTP Server, incorporating Open Graph for social media compatibility and particles.js for interactive visual effects.

2023 February – 2022 March
Helsinki, Finland

Marjala, Full-Stack Developer
- Developed responsive websites and web applications using HTML, CSS, and JavaScript.
- Implemented modern front-end frameworks like React.js to enhance user experiences.
- Built RESTful APIs and integrated third-party APIs for seamless data transfer.
- Collaborated with cross-functional teams to gather project requirements and design database structures.
- Utilized back-end technologies like Node.js and Express.js for server-side development.
- Maintained and updated existing web applications with new features and enhancements.

2018 January –
2019 December
Poznań, Poland

Roboticket, Full-Stack Developer ⧉
- Orchestrated the development of a high-performance web application using Next.js for server-side rendering, React.js for dynamic front-end interfaces, and Node.js for robust back-end functionality, ensuring seamless user experiences across all devices.
- Implemented scalable file storage solutions with Amazon S3, optimizing data management and retrieval processes while maintaining data security and reliability throughout the website's lifecycle.
